

# 8mm/T5 Circle Neon

## Flexible neon tube

A super compact 360° round neon light designed for seamless vertical bending, allowing for up-and-down flexibility in your lighting design.

With its smooth, matte-treated surface, Circle Neon is resistant to dust, ensuring a clean and polished look in any application.

Circle Neon 8 provides a uniform and even light source without any visible LED hotspots, delivering consistent 360° illumination.

### Flexible Vertical Bending

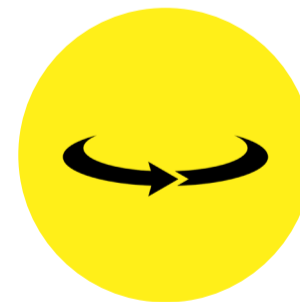

Easily bends up and down for dynamic designs.

### Smooth & Durable

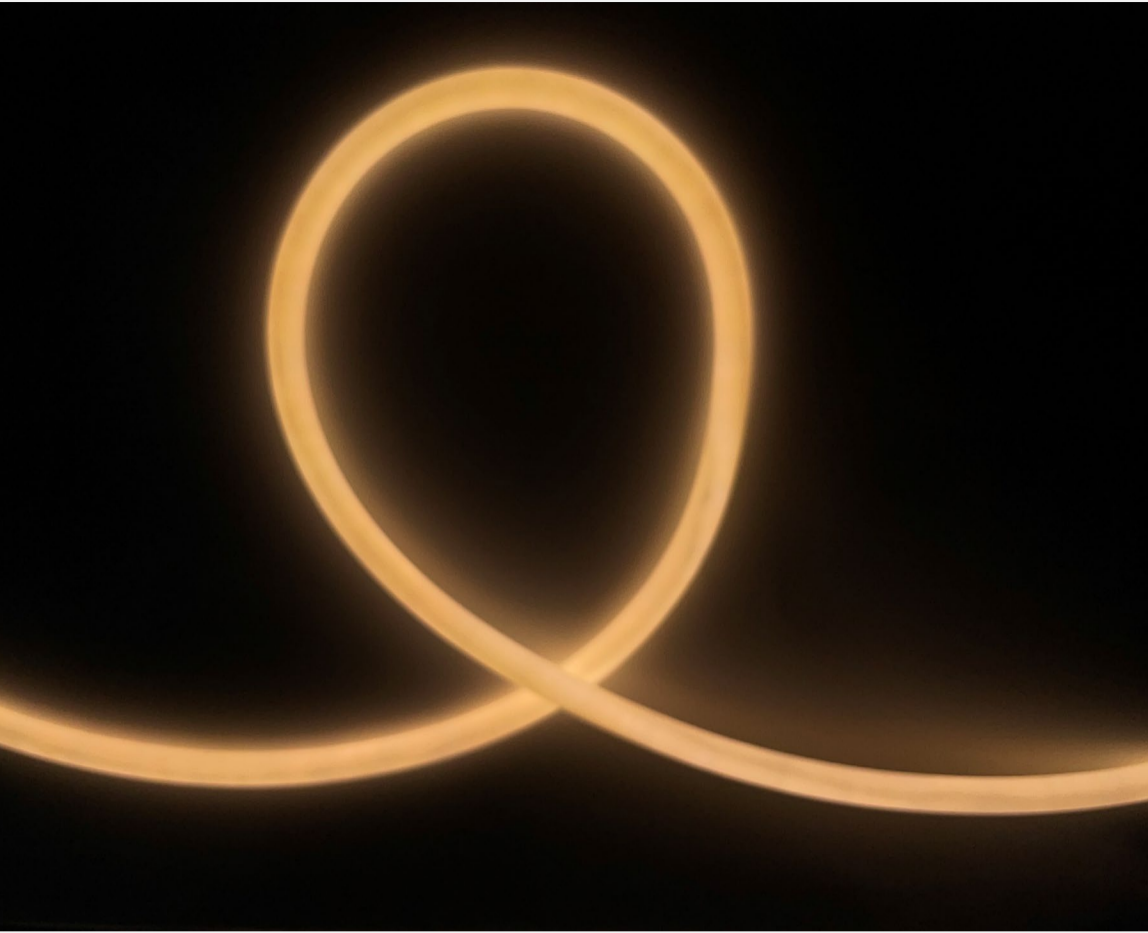

Matte-treated surface is resistant to dust.

### Compact 360° Light

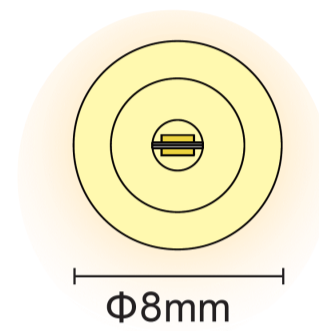

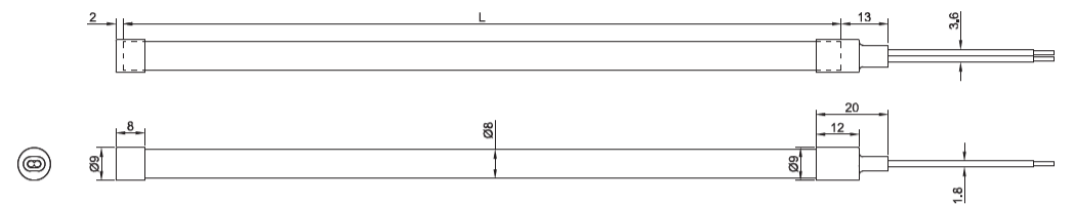

Uniform illumination with no LED hotspots. Fits into small spaces.

# Design in a new direction.

Start creating with the Circle Neon 8 for flawless 360° illumination in your projects.

## Specifications

LEDs Type

COB

Voltage Circuit Type

24VDC & Constant Voltage

IP Rating

IP65

Minimum Section

33.3m (1.3")

Color Temperature	Lm/m	Power/m	Light Efficiency	Energy Efficiency Class	CRI
